He shared the goal for next year is to increase this percentage by closing online filing opt-out loopholes for large employers. He added Lycoming Township recently joined the network, and YATB is currently evaluating Altoona School District. Expanding the user base for their proprietary software helps defray overhead costs which in turn, benefits the district. He noted a special meeting is scheduled for next Monday and will focus on final bid selections to upgrade IT server capacity, backups, and security. Capital funds are already fully allocated for this project, requiring no additional money to be raised.
