Capital Plan Board Overview

Multi-Year Capital Planning and Strategic Investment

Based on the Warwick Capital Plan by Phase and MEP Assessments
BOARD DISCUSSION – OCTOBER 2026

The Facility Needs Assessment Was Completed in
Partnership With:

WTI (Weatherproofing Technologies, Inc.)

Why Long-Term Capital Planning Matters

A proactive, financially responsible approach to maintaining educational facilities

Students & Staff	Prioritize life safety, code compliance and reliable building systems.
Reduce Cost & Disruption	Plan ahead to limit emergency repairs, avoid repeat mobilization and coordinate work around the school calendar.
Manage Financial Impact	Forecast capital needs, evaluate borrowing and funding options and spread major investments across multiple years.
Align Facilities With Enrollment	Match long-life investments to building utilization, projected enrollment and educational programs.
Support Transparent Decisions	Provide the Board with a defensible, adaptable roadmap for prioritizing projects and refining costs before approval.

Key Message: The plan is a living roadmap—not a commitment to complete every listed project.

What This Plan Overview Is and Is Not

It Is a Planning Framework

Sequences identified capital needs across five phases, beginning with fire alarm replacements and moving to building renewal and system upgrades. The plan doesn't account for architectural items such as FFE, learning space design and building code upgrades.

It Is Not a Final Commitment

The listed costs are planning estimates. Selected scopes, detailed design, procurement strategy, bids and available funding still need further administrative review. Costs will be refined before individual projects are presented for Board approval.

Future Discussion & Planning Considerations

1. Discuss priorities and next steps
2. Review the information as a validation of need, not approval of every listed project.
3. Use the needs assessment to prioritize safety, code, end-of-life systems and risk of service disruption.
4. Bundle compatible scopes at the same building to reduce repeat mobilization and coordinate construction access.
5. Evaluate borrowing strategies and related long-term financial planning needs.

Planning: Executive Takeaways

1

Address Life Safety First

Phase I groups four (4) fire alarm replacements with infrared scanning / testing.

This is a clear opening priority.

2

Coordinate Major Systems

Lititz Elementary and Warwick Middle School have substantial HVAC scopes; coordinate central plant, terminal units, controls and related roof work.

3

Validate Before Locking In Phases

Capacity and enrollment review remains essential before committing to major building-specific investments.

Sequencing from the MEP Report-Example

Lititz Elementary	Central heating, cooling, terminal HVAC and controls are all identified for replacement. Grouping them is sensible. The roof is described as generally good and should be moisture-survey driven before restoration/replacement scope is finalized.
Warwick Middle School	Roof restoration, envelope work and a major HVAC renewal sit in Phase IV—an efficient building-level bundle but confirm roof condition and HVAC design dependencies together.
Bonfield Elementary	The 2015 HVAC renovation means broad HVAC replacement is not indicated; the phase list appropriately focuses on selected exhaust, electrical distribution and other aging components.

Planning: Current Estimates

Largest planning allocations in Phases IV and V

Base planning estimates total \$71.5M; escalated planning estimates total \$78.4M. Figures are preliminary. Costs for selected projects to be reviewed by Fidevia.

Planning: Five-Phase Roadmap – At a Glance

PHASE I

Summer 2027

Life Safety + Testing

- 4 fire alarm systems
- Infrared scanning / TRACE core testing

PHASE II

2028

Lititz HVAC + Envelope

- Heating / Cooling / Controls
- Lighting and roofing
- High School windows, track and masonry

PHASE III

2029

Bonfield + Kissel Hill

- Bonfield envelope, roof, electrical and selected mechanical
- Kissel Hill roof, windows, site and intercom
- John Beck windows and café doors

PHASE IV

2030

Warwick MS + John Beck

- MS roof / envelope / HVAC
- John Beck flooring, generator and intercom

PHASE V

2031

Interior + Remaining Lifecycle

- Lighting, flooring, controls, generators, food service, water treatment and other lifecycle items

Planning Note: Phases and project scopes are preliminary and subject to further assessment, cost validation and capacity review.

Planning: Phase I

A practical first step

Why It Leads

Four fire alarm replacements are listed for John Beck Elementary, Lititz Elementary, Kissel Hill Elementary and Warwick Middle School. The MEP report identifies unsupported Siemens MXL systems and recommends voice-addressable upgrades at multiple buildings. Roof testing will help inform the next phase of work.

Before Procurement

- Confirm code requirements with the fire alarm professional.
- Verify the scope and status of each building's system.
- Coordinate testing and any electrical or ceiling work that could affect installation.

Provides Planning Time

- Determine procurement method.
- Projects in later phases will require additional time for review, planning and engineering.

Important Distinctions

- Bonfield's fire alarm was replaced in 2017. Its later-phase timing has been validated.
- Roofing: Infrared scanning / TRACE core testing is useful due diligence and can inform later scopes.

Planning: Bundle Projects

Where construction logic comes into planning

Lititz Elementary Phase II

Coordinate heating plant + cooling plant + terminal HVAC / rooftop units + controls. Pair with roof work only after moisture survey and roof-system scope are confirmed.

Bonfield + Kissel Hill Phase III

Package roof restoration, roof-edge sealing, façade/masonry work and HVAC replacement planning. Align roof penetrations, curbs, flashing and HVAC equipment replacement.

Warwick Middle School Phase IV

Bundle Bonfield façade/masonry, roof restoration and canopy work with electrical planning. Coordinate Kissel Hill roof, envelope, windows and site work within Phase III to share access and mobilization.

Economy-of-Scale Rules of Thumb

- Combine scopes by building and construction season when trades, access equipment, scaffolding, shutdowns or permits overlap.
- Do not bundle work solely to make a phase look efficient if it delays a safety need or creates an unmanageable construction year.
- For roof + HVAC projects, complete roof condition/moisture investigations and confirm sequencing before final bid packaging.

Planning: Phasing Priorities and Considerations

Priority / Safety	Prioritize the four Phase I fire alarm replacements. Bonfield's later-phase timing has been validated.
Roofing Coordination	Kissel Hill roof and envelope masonry work is slotted in Phase III, subject to moisture survey; Lititz roof is reported generally good with localized bubbling—confirm scope before procurement.
HVAC Coordination	Lititz and Warwick MS scopes are bundled by system, but validate project duration, temporary conditions, controls integration and summer occupancy constraints as part of final planning and approval.
Risk Consideration	Bonfield switchgear is obsolete/unmaintainable and generator is aging; ensure Phase III scope is not delayed if parts availability or failure risk worsens.
Estimate Review	Confirm Kissel Hill sidewalk quantities and the ~\$306K planning allowance; validate escalation, contingencies and potential overlapping scope.
Enrollment / Capacity High Level Review	Do not commit to major building-specific projects until utilization, program needs and projected enrollment are discussed and/or reviewed.

Planning: Align Facilities Investment With Future Use

Internal Building Capacity and Enrollment Review

- Enrollment trends should be evaluated using Warwick-specific historical data and projections.
- Current room utilization by school, grade and program.
- Enrollment projections and cohort progression assumptions.
- Special education, CTE, athletics, food service and support-space needs.
- Potential boundary, grade configuration or program changes.
- Deferred maintenance exposure if a building's future role changes.

How It Should Change the Plan

If a Building Remains Core

Prioritize durable, long-life systems and coordinate major renewals.

If Utilization May Shift

Separate essential life-safety / asset-protection work. Some work may not be necessary.

If Consolidation Is Plausible

Reassess scope and timing before committing to large building wide or program-specific investments.

Planning: Next Steps

Move from a planning roadmap to an actionable plan

Optional Step 1	High-Level Capacity & Enrollment Review	Assess current utilization, projected enrollment, program needs and long-term building roles.
Step 2	Validate Selected Scopes	Confirm condition, quantities, system dependencies and whether each item remains necessary.
Step 3	Develop Reliable Costs	Update estimates, escalation, design/engineering, contingencies, procurement and construction-year cash flow.
Step 4	Continue Refining Phasing and Project Bundles	Prioritize safety and failure risk; bundle compatible roof/envelope/HVAC/electrical work by building and season. Emerging needs may require reprioritization.
Step 5	Return to the Board	Present a refined project list, options, annual funding profile, risks, and items recommended for deferral or acceleration.

Key Takeaway — Endorse the planning process. This is a planning roadmap, not authorization of project scopes or costs.

PURPOSE

The Board recognizes that bullying **and cyberbullying create** an atmosphere of fear and intimidation, detracts from the safe environment necessary for student learning and may lead to more serious violence. **The Board is committed to providing a safe, positive learning environment for district students that is free from bullying and cyberbullying.**

DEFINITIONS

Artificial Intelligence-Generated or Modified Media means text, code, images, audio or video data that has been created or modified from its original source data through the use of artificial intelligence technology, programs or platforms.

2. Creating a threatening environment; **or**
3. Substantially disrupting the orderly operation of the school.

Cyberbullying means bullying through the use of electronic technology or communication, including data, computer software or online platforms regardless of their origin, using a device, system network, internet service, email, social media or other digital means, including artificial intelligence-generated or modified media. Cyberbullying includes bullying conduct which occurs in a school setting.[1]

{X } and/or outside a school setting.

School setting means in the school, on school grounds, in school vehicles, at a designated bus stop or at any activity sponsored, supervised or sanctioned by the school.

[1]

AUTHORITY

The Board prohibits all forms of bullying **and cyberbullying** by district students **and requires that this policy be accessible in every classroom. The policy shall be posted in a prominent location within each school building and on the district website.**^[1]

The Board encourages students who believe they or others have been bullied to promptly report such incidents to the building principal or designee.

The Board directs that complaints of bullying **and cyberbullying** be investigated promptly, and appropriate corrective or preventative action be taken when allegations are substantiated. The Board directs that any complaint of bullying **or cyberbullying** brought pursuant to this policy **to** also be reviewed for conduct which may not be proven to be bullying **or cyberbullying** under this policy but merits review and possible action under other Board policies.^[1]

Confidentiality

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation shall be handled in accordance with applicable law, regulations, this policy and the district's legal and investigative obligations.

Retaliation

Reprisal or retaliation relating to reports of bullying **or cyberbullying** or participation in an investigation of allegations of bullying **or cyberbullying** is prohibited and shall be subject to disciplinary action.

DELEGATION OF RESPONSIBILITY

Each student shall be responsible to respect the rights of others and to ensure an atmosphere free from bullying **and cyberbullying**.

The Superintendent or designee shall develop administrative regulations to **support** this policy.

The Superintendent or designee shall ensure that this policy and administrative regulations are reviewed annually with students.^[1]

The Superintendent or designee, in cooperation with other appropriate administrators, shall review this policy every three (3) years and recommend necessary revisions to the Board.^[1]

District administration shall annually provide the following information with the school safety and security incident report:^[1]^[2]

1. Board's Bullying/**Cyberbullying** Policy.
2. Report of bullying **and cyberbullying** incidents.
3. Information on the development and implementation of any bullying **and cyberbullying** prevention, intervention or education programs.

GUIDELINES

Reports of bullying or cyberbullying may be made orally or in writing and may be anonymous, except where made by district staff. Students are encouraged to use the district's reporting form attached to this policy, or to submit a written

complaint; however, oral complaints will be accepted, documented and investigated.

Any individual receiving a complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor any person involved.

District staff who observe bullying/cyberbullying or receive a report of bullying/cyberbullying shall not conduct an independent investigation but shall take appropriate action to protect the safety of involved students and promptly provide a summary of the observed or reported conduct to the building principal or designee.

For purposes of this policy, a reporter is an individual, other than district staff, who reports alleged bullying/cyberbullying directed at one or more students. A complainant is the alleged victim or target of the conduct. In some circumstances, the same individual may serve as both reporter and complainant.

The building principal or designee shall encourage the complainant or reporter to complete the district's designated report form. If, due to age, disability or other incapacity, the complainant or reporter is unable to complete the form, the building principal or designee shall document the report and complete the form on the individual's behalf. If the report is made by someone other than the complainant, the complainant shall be notified promptly, informed of the report, and encouraged to complete the district reporting form.

As soon as practicable after the receipt of a report of bullying or cyberbullying, the district shall notify the parent(s)/guardian(s) of any student involved in the incident.

If the complainant, district staff, or other professionals with knowledge of the complainant's health and well-being indicate that notifying a parent/guardian could place the complainant or another person at risk of abuse, neglect or other imminent harm, the building principal, in consultation with the Superintendent and legal counsel, and as appropriate, law enforcement, child welfare authorities and other qualified professionals, may determine whether parental notification should be delayed as permitted by law. The basis for the delay must be documented, and parent/guardian notification shall occur as soon as legally and safely practicable.^[3]^[4]

Every report of bullying/cyberbullying shall be reviewed and investigated promptly and sufficiently to address the alleged misconduct, even if the report is anonymous or the complainant requests that no action be taken.

Threat Assessment

When a student's behavior indicates a threat to the safety of the student, other students, school employees, school facilities, the community, or others, district staff shall make a referral to the district's threat assessment team in accordance with applicable law and Board policy.^[5]^[6]

Discrimination/Harassment

If, at the time of the report or at any time during the investigation of the alleged bullying/cyberbullying, there is reason to believe that the conduct may fall within the provisions of the district's discrimination/harassment policies, the Title IX Coordinator must be promptly notified. Upon notification, the Title IX Coordinator will immediately initiate steps to comply with appropriate policies and procedures. The investigation will be handled as a joint and concurrent investigation to address all applicable allegations and legal requirements.^{[7][8]}

Investigation Procedures

After determining that the matter does not require handling under Policy 103, the building principal shall determine whether the investigation may be conducted by the principal or designee or whether the matter must be referred to the Superintendent or another appropriate administrator.

If law enforcement has been notified, a law enforcement report has been filed, or substantiated allegations could result in expulsion, the building principal shall consult with the Superintendent or appropriate administrator, who may seek advice from legal counsel.

Investigations shall be timely, impartial, thorough and comprehensive. The investigation may include:

1. Interviewing the complainant.
2. Interviewing the individual(s) accused of the conduct.
3. Interviewing witnesses.

6. Conducting any additional inquiry reasonably necessary to determine the facts and address proven misconduct.

Investigative Findings

The investigator shall prepare findings that summarize the investigation, determine whether the allegations have been substantiated, identify any violation of Board policy or applicable law, and recommend appropriate corrective action.

As soon as practicable after determining that an incident of bullying or cyberbullying has occurred, the district shall notify the parent(s)/guardian(s) of any student involved in the incident of the determination of the investigation.

The complainant/reporter and the accused shall be informed of the outcome of the investigation within a reasonable period of time, consistent with the Family Educational Rights and Privacy Act (FERPA) and other applicable laws. The accused shall not be informed of any individual remedies provided to the complainant.^[9]

District Response and Corrective Action

If an investigation results in a finding that bullying or cyberbullying or other misconduct occurred, the district shall take prompt and appropriate corrective action designed to stop the conduct, prevent its recurrence, protect affected

students, eliminate any hostile or disruptive environment, and prevent retaliation.^[1]

The district shall document corrective actions taken and, when permitted by law, inform the complainant or reporter of responsive measures. District administrators shall monitor the effectiveness of corrective actions and take additional measures when necessary.^[1]

These reports shall be reviewed by the Superintendent or designee to identify potential concerns early, provide guidance when appropriate, and determine whether additional support or remedial training is needed. After the initial first-year period, ongoing reporting shall continue on a schedule determined by the Superintendent or designee, but no less than annually **to report any changes and/or concerns in the facility dog's behavior or health status.**

If a facility dog, **caretaker or handler** does not successfully complete the test, the Superintendent or designee shall determine appropriate next steps, which may include additional training, coaching, or removal from service.

Exclusions and Removal

A facility dog may be excluded or removed from district property at the discretion of the Superintendent, building administrator, or designee for any reason, including but not limited to:

The caretaker or handler shall immediately remove the facility dog from school property when instructed to do so by a school administrator.

Complaints and Concerns

Issues or concerns related to facility dogs shall be taken seriously and addressed promptly. The following procedures shall be followed:

1. All issues or concerns shall be reported immediately both verbally and in writing.
2. Students shall report concerns to a staff member. This should be a written report in addition to any verbal reports.
3. Staff members shall report concerns to building administration. Both verbally and in writing.

5. Building administration shall ensure appropriate actions are taken to address substantiated concerns.
6. Decisions by building administration may be appealed to the Superintendent.

Retirement of Facility Dogs

District Facility Dogs in general terms work 5-10 7 years before retiring if their health and well-being and safety are maintained and the Facility Dog still enjoys coming to school and interacting with staff and students. The decision to retire a Facility Dog will be determined by the assistance dog organization or professional trainer/business accredited-agency, the Superintendent or designee, the Caretaker and any Veterinary reports to support this decision.

Upon retirement from continued service with the district, the Superintendent shall give consideration to placing the retired facility dog with its current or former caretaker who is willing to adopt the dog.
