Per Board Policy 903. Public Comment in Board Meetings, all individuals wishing to comment during the Board meeting shall complete a document designated for requests to comment and submit the document to the Board Secretary prior to the start of the meeting. Individuals shall wait to be recognized by the presiding officer before commenting, must direct all comments to the presiding officer, and must preface their comments by an announcement of their name, and group affiliation, if applicable. Each statement made by an individual shall be limited to three (3) minutes. Commenters may not cede their time to other individuals. East Penn School District

Sports Medicine and Health Services Partnership Proposal

LEHIGH VALLEY HEALTH NETWORK

Proudly Part of Jefferson Health

Dear Dr. Kristen Campbell and East Penn School District Leadership,

Thank you for the opportunity to provide this Sports Medicine and Health Services Proposal for East Penn School District (EPSD). We are delighted to submit this proposal which outlines our intent to early extend our partnership with EPSD for another five (5) years beyond the current June 30th, 2028 term date through 2033. We are committing to providing the best-in-class services and programs designed to enrich the lives of students, faculty and staff, and the East Penn Community as a whole. In addition to our robust service and programmatic offerings, we are positioned to provide EPSD with additional marketing and other earmarked financial contributions that will enable the EPSD to pursue its short-term and long-term aspirations under a mutually beneficial agreement through 2033.

Now proudly a part of Jefferson Health, Lehigh Valley Health Network (LVHN) brings more access to world-class care to the region as a 65,000-employee strong health network. The integrated health system is also comprised of a national research university Thomas Jefferson University and Jefferson Health Plans which positions LVHN to better serve its community members across all ages and socioeconomic backgrounds.

As a top 25 ranked hospital in the nation for Orthopedic Care by U.S. News and World Report, LVHN brings decades of experience in supporting high schools and collegiate athletic programs in our region, including the area's only NCAA Division I colleges. Our depth of expertise in Orthopedics and Sports Medicine is unrivaled as our reliability is the result of a deep-rooted commitment to the highest standards of care in every orthopedic subspecialty. We continue to enhance our Orthopedic and Sports Medicine portfolio as we are the region's only health system that offers one-on-one clinical sports nutrition services both virtually and in-person and billed through insurance. EPSD athletics staff shall also have direct access to our clinical sports dietitian for seminars and advisement in dealing with serious student-related nutrition issues that may arise. Lastly, EPSD will be afforded with no-cost partner preferential after-school access to the turf field and weightroom at the Upper Macungie Township Lifestyle Center scheduled to open in August of 2026.

Beyond the scope of Orthopedics and Sports Medicine, we are committed to continuing to provide a dynamic portfolio of Health and Wellness programs and services across the EPSD to include the following: Weller Center Health Education programming, on-site behavioral health services administered by licensed professionals, school-based physician services, Health Care Career Pathways and Emerging Health Professionals programs.

All services, programs, and financial commitments outlined in this proposal would go into effect on July 1st, 2026 under a new binding agreement(s). Lehigh Valley Health Network is well positioned to serve the East Penn School District and the members of your community to the fullest as your Sports Medicine and Health Services Partner through 2033. We look forward to discussing our proposal with you in the very near future.

Sincerely,

Robert McClarin

1. LVHN + Jefferson

Mission

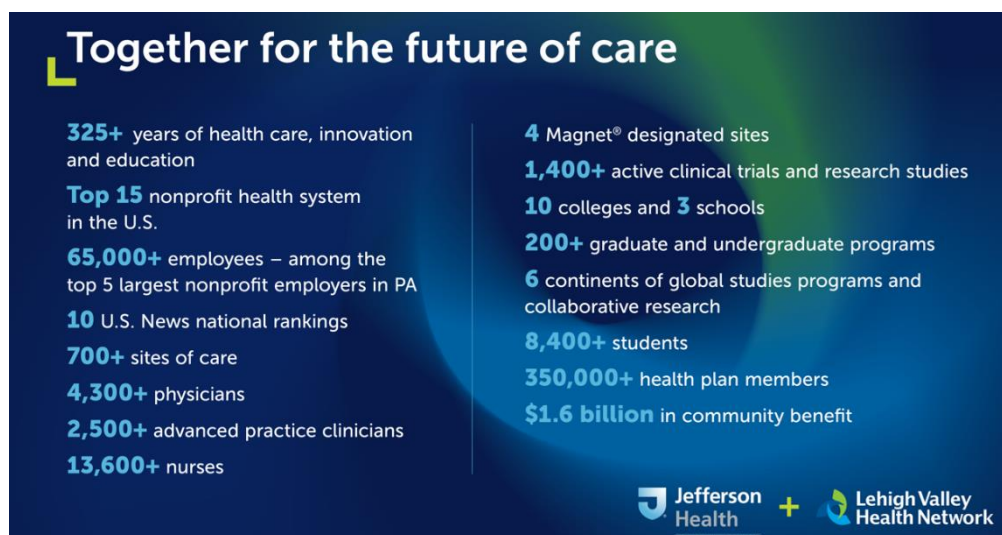

At LVHN, now a part of Jefferson Health, we continually go the extra mile to further our mission to improve lives. Our vision is predicted by reimagining health, education and discovery to create unparalleled value to the regions we serve. Across the Lehigh Valley and beyond, we continue to invest in enhancing access to specialized care and services as we are indebted to making our communities that we serve healthier and better places to live. We are undoubtedly committed to our K-12 and higher education partnerships across eastern Pennsylvania as we continue to expand and diversify our programming, services, and support in a collaborative and mutually beneficial manner based upon the invaluable feedback of our partners.

Values

Our values are our core. They are what we believe and what guide us in decision making to improve lives. With people's lives in our hands, our values are the truest definition of who we are as individuals and as a cohesive network.

LVHN and Jefferson have a shared cultural identity historically driven by “community-first” care. We are designed and committed to ensure that we grow together but that our patient experience remains personal and locally focused on healing, comforting, and caring for the lives of the communities that we serve. We stand together for the future of care.

2. LVHN Sports Medicine and Sports Performance

Lehigh Valley Health Network is the leading provider for comprehensive sports medicine services for the region's top professional, collegiate, and high school athletes. Today, we have the largest and most experienced team of orthopedic surgeons and sports medicine providers in the region. In February of 2022, the Lehigh Valley Orthopedic Institute was born, solidifying the integration of the region's most experienced sports medicine providers in Lehigh Valley Physician Group and Coordinated Health.

Our care model is based on a singular commitment to build the safest and most successful athletic programs through continuous collaboration and consultation with physicians, athletic trainers, coaches, and athletes. For over 30 years, our team has been refining sport-specific protocols to prevent injury, and when an injury does occur, to provide continuous and reliable access to the most comprehensive continuum of sports medicine care in the region. Together, the Lehigh Valley Orthopedic Institute has over thirty surgeons and sports medicine physicians with decades of team physician experience. Our care model was invented for and designed around athletes with an emphasis on immediate access to precise diagnostics 24/7 and a direct connection between physicians, athletic trainers, and physical therapists for rapid and safe return to play.

Our multi-disciplinary sports medicine team works together to deliver high-quality care that helps athletes meet personal and competitive goals. We provide services across the full continuum of care, including athletic training and sports performance services, walk-in and virtual injury care, musculoskeletal radiology, sports rehabilitation, concussion care, sports cardiology, sports nutrition, affiliated chiropractic medicine, and depth in all musculoskeletal subspecialties. We coordinate all aspects of care so that access is immediate, and care is efficient.

Our physicians understand the importance of communication in keeping athletes healthy and on the path to recovery. The athletic trainers will have direct access to the sports medicine physicians and all other specialists who support EPSD. Updates on athlete treatment and recovery will be communicated continuously to parents, athletes, and coaches.

Testimonials

“I love Mrs. Williams. She was the best thing to happen to me during high school”

- Emmaus High School student

“Amy is an integral part of the team and not seen as an outside contractor. She is always willing to step in and help students and the office. She is a calming force who students look forward to seeing. She is extremely patient and her willingness to go above and beyond for all students is appreciated.”

- Emmaus High School Guidance Department

“Kristen is one of the most supportive and knowledgeable people in our building, and that I have ever worked with. She has implemented many positive school wide supports, as well as worked with students on her caseload to challenge negative external and internal messages and help them build healthier perspectives that support positive thoughts and behaviors. We are so lucky to have CIS in our building. Kristen brings immense value to our school community,”

Eyer Middle School

Student Success Story

A 7th-grade male student who moved from New York last year initially showed resistance to support and was hesitant to connect with adults in the building. Over time, through consistent check-ins and relationship-building efforts, he has begun to engage more with staff, gradually developing trust and accessing the support available to him. Continued guidance and encouragement are helping him feel more connected to the school community.

Both this 7th-grade student and his older brother were referred to CIS last year due to academic struggles and difficulty communicating with adults or asking for support. When first introduced to CIS, the student was hesitant and guarded, unsure about how the program could help him or how much he could trust an adult outside his family. His initial impressions were cautious; he observed and tested boundaries rather than fully engaging. Trust was gradually built through consistent, nonjudgmental interactions. The CIS staff checked in regularly, offered support without pressure, and celebrated small successes. By showing reliability, respect, and genuine care, the staff created a safe space where the student felt heard and valued.

Although initially resistant this year, the student is gradually becoming more engaged and is seeking out the Site Coordinator more consistently. He has agreed to join an SEL group, where he participates actively, and regularly talks with the Site Coordinator about his day, personal challenges, and academic needs. In addition to this support the student has also joined a micro group during lunch and seems to enjoy being involved in this activity. He also welcomes support in reviewing missed assignments and staying on track with his schoolwork. The student appears more driven and focused with this additional support in place.

Emmaus High School

Student Success Story

When she first became involved with CIS during her sophomore year, graduating from high school seemed out of reach. After an unsuccessful freshman year, she had already failed several classes and was continuing to struggle academically. She was frequently absent, involved in physical altercations, and using substances to cope with stress and conflict. Although graduating had become her dream, she questioned whether she was capable of reaching it. Growing up, she had often been told she would never graduate. Over time, that dream became about more than earning a diploma—it became an opportunity to prove to herself that she could succeed despite the obstacles she faced. The challenges in her life extended far beyond school. She came from a single-parent household where financial stress, mental health challenges, and a complicated but loving relationship with her mother created additional barriers. She was hesitant to trust others and reluctant to share personal information because she feared being judged and had grown up believing family struggles should remain private.

She was introduced to CIS following her difficult freshman year. At first, she was skeptical of the support and kept most conversations at the surface. Trust developed gradually through consistent check-ins, encouragement, and having someone who continued to believe in her, even when she made mistakes or experienced setbacks. Over time, she began opening up about the challenges she was facing and became more willing to accept support. By the beginning of her junior year, a noticeable shift occurred. She began identifying her own reasons for wanting to graduate. She wanted to walk across the stage with her friends, and she recognized how many of her earlier choices had made achieving that goal more difficult. She started surrounding herself with more positive peers, participated in social-emotional learning supports, encouraged friends to get involved, and built stronger relationships with trusted adults and teachers. Rather than allowing discouraging messages from others to define her future, she began making decisions that reflected the life she wanted for herself.

Her senior year was far from easy. She still needed to earn a significant number of credits to graduate on time, and there were moments when the goal seemed overwhelming. Instead of giving up, she leaned on the relationships and resources she had developed over the previous two years. She worked with her teachers, sought help when she needed it, and stayed focused on the goal she had claimed as her own. Graduating from high school became more than the completion of her education. It became proof that her circumstances did not determine her future. The confidence, resilience, and support system she developed along the way will continue to serve her long after she leaves high school.
